

THE NEXT GENERATION IN SHADING

DELIVERING VALUE

The Rainier is our signature model of shading systems. This time-tested model has shaded homes and expanded outdoor living throughout the country since our company's inception. The Rainier offers excellent value by incorporating a full line of product options, allowing you to design a shading system to fit your individual needs.

ENDURING PERFORMANCE

The Rainier can be mounted on virtually any surface and is ideal for both residential and commercial applications. This "green" solution will expand your living space, reduce interior solar heat gain, block glare and prevent fading of your furnishings - year after year. With dozens of long lasting fabrics in an array of designer colors and patterns, you can create your own getaway, just a few steps out of your door. The Rainier is a fully retractable shading system. With the touch of a button, you can fully retract your awning, keeping it safe from the elements when not in use.

PRODUCT FEATURES:

AVAILABLE SIZES

The Rainier shading system is custom made to fit your unique space. With widths up to 40' wide and projections up to 11'6", we've got you covered!

The Rainier components meet stringent ISO 9001 and TUV standards and are assembled in the USA by skilled craftspeople.

ALUMINUM TORSION BAR

The Rainier features a non-corrosive torsion bar that is powder coated to match the framework of the awning.

MOTORIZED

Easy, touch of a button operation when motorized and includes a manual override feature should you lose power.

ADVANCED RIBBON TECHNOLOGY (ART)

The Rainier's tension transmission system, which incorporates our ART, has been tested and proven on performance for almost 2 decades. This design does not stretch or breakdown over time, keeping your fabric taut for years to come.

ROOF MOUNT SOFFIT MOUNT

MOUNTING/SOFFIT

Wall, soffit, or roof mounting available to match your needs.

ARM LIFE EXPECTANCY:

➔ ART	— 60,000 Cycles
CHAIN	— 8,000 Cycles
CABLE	— 5,000 Cycles

STANDARD PRODUCT WARRANTY

- 10 years on the framework & optional hood
- 10 years (non prorated) on the fabric & seams
- 5 years on motor and electronics

DESIGNED

TO MEET
YOUR NEEDS

PRODUCT
OPTIONS

CUSTOM BUILT TO YOUR SPECIFICATIONS

Every Rainier shading system is custom made and professionally installed by our independent dealers to meet your individual requirements. The Rainier model is available up to 40' wide with projections up to 11' 6". (up to 22' wide x 11'6" projection, with a Drop Shade). Rainier shading components meet stringent ISO 9001 and TUV standards and are assembled in the USA by skilled craftspeople.

TRULY THE INDUSTRY LEADER

While others have exposed cables or chains, the Rainier incorporates our unique Advanced Ribbon Technology (ART). Our Rainier model ART consists of 9 individually wound cables encased in a polycarbon, UV resistant coating. This time proven feature will provide you with a long, worry free life for your shading system.

Exposed cables - Older technology, less durable

ART Arm tensioning system provides strength, quality and durability

Optional Cross Arm:
(For narrow spaces when longer projections are needed)

MOTORIZED FOR EASY USE

Your Rainier features a UL listed motor from Somfy, the world leader in home automation. You can operate your shading system with a wireless wall switch, a hand held remote, a smart device... or from all of these! To further increase the effectiveness of your shading system, we offer automatic sun and motion sensors - ask your dealer for more details.

MOUNTING & FABRIC PROTECTION

Your Rainier unit can be ordered:

Open Roller: Your unit fabric is fully exposed when rolled up (soffit or wall mounts).

Protective Hood: When retracted, the matching aluminum hood protects the fabric from elements (wall & roof mounts).

Roof Mounted with Hood: When limited wall mounting space is available, Roof mounting is your best option and always opt for the protective hood.

DROP SHADE

Add even more solar protection while increasing your privacy with the Rainier Drop Shade. This option features an open mesh, sun screen fabric that extends down from the front bar over the width of the awning. The Drop Shade is self storing and motorized.

MOOD LIGHTING

Add a unique element to your evening entertaining with several lighting options. Lunar Lighting (shown) is typically applied to the back of the front bar and offers a soft warm glow light which can be turned on or off with the same multi-channel remote/transmitter as your awning. An LED lighting option is available with light strips applied to the arms of the awning (dealer installed). This UL-listed LED light kit offers 16 levels of light in either warm (3000K) or cool (6000K) lighting and like lunar lighting, can be controlled with the same multi-channel remote/transmitter or multi-channel wireless wall switch.

ELECTRONIC ACCESSORIES

Our world class wireless components make operating your shading system effortless.

- **Wind/Motion Sensor:** This accelerometer sensor attached to the awning's framework will retract the unit if it gets too windy - adding a level of safety and security.
- **Sun Sensor:** This sensor, typically mounted to an exterior wall, will automatically extend the awning once the preset sun level is attained, and will automatically retract your shading system when the sun passes.
- **TaHoma:** With a TaHoma®, create scenarios to link your connected devices and activate them with just a click on your smartphone!

HARDWARE TO MATCH YOUR DECOR

Rainier offers three architecturally pleasing colors to either match or accentuate your home.

WHITE CAMEL SPARTAN BRONZE

SUNBRELLA SHADE FABRICS - FROM SERENE TO STUNNING

Rainier offers a wide array of long lasting, fade resistant, 100% acrylic fabrics from Sunbrella. The Sunbrella Shade fabrics are specifically made for heavy duty applications such as retractable awnings. Each fabric cover is computer cut, has ultrasonically sealed edges, and is sewn with Tena thread to provide a full 10 year warranty on the fabric and the seams. Make a bold statement or blend harmoniously to your home's décor... whatever your choice, we have the fabric for you.

DIAMOND & EMERALD PROTECTION - TWO LEVELS OF SECURITY

Looking for an extended warranty on your complete shading system - from frame to fabric, motor and electronics? Then you will love the benefits of our two levels of security. Ask your dealer for complete details on the Diamond and Emerald Protection plans available.
